DESCRIZIONE

MD5:

912a11ccbee856ec07fe9a37bf41200c

Indirizzo Bitcoin:

1HB5XMLmzFVj8ALj6mfBsbitRoD4miY36v

E-mail legata al Ransomware:

owerhacker@hotmail.com

FUNZIONAMENTO

Il Ransomware esegue la crittografia di numerosi file e ne modifica l'estensione in .RansomUserLocker.

ES: <File_name>.<extension>.RansomUserLocker

Successivamente viene creato il file della nota di riscatto che presenta il seguente testo:

Your ID (personal-ID) 1. What happened to your computer? Your personal files, including your photos, documents, videos and other important files have been encrypted with RSA-4096, a strong encryption algorithm. RSA algorithm generates public and private key for your computer. The public key is used to encrypt the file. The private key needed to decrypt and recover the files. Your private key is stored on our server secret. Nobody will be able to recover your files without the key.

2. How to decipher my files?

To decrypt and restore files you have to pay for the private key and decrypt. You only have 72 hours to make the payment. If payment is not made during this time, your private key will be automatically removed from our server. Do not waste your time, because there is no other way to restore your files, except for payment of a ransom.

3. How to pay for my private key?

Follow these steps for the payment and recovery of files:

- 1). Payment is only possible in Bitcoins. So please buy 1 The BTC, and then send it to the address below.
- 2). Send your ID (Personal ID) to our official email-address below:
